THE  **MAGNETTE SALOON**

An elegant saloon designed for comfort and with a distinctive sports-car performance... this amply describes the M.G. Magnette. The pleasing, wind-cheating outside appearance is matched by an interior furnished with seats upholstered in best English leather on the wearing parts and luxurious floor carpets. The fascia panel and door cappings are in grained polished walnut.

Whether in traffic or on the open road, the Magnette reacts instantly to the controls, the lively 1½-litre engine giving a remarkably flexible performance. Power is achieved with a comparatively short stroke, giving brisk acceleration and ensuring longer engine life. Road-holding is exceptionally good.

A range of attractive colour schemes is offered and the Varitone version (illustrated above in Island Green and Dark Green) is available at small extra cost.

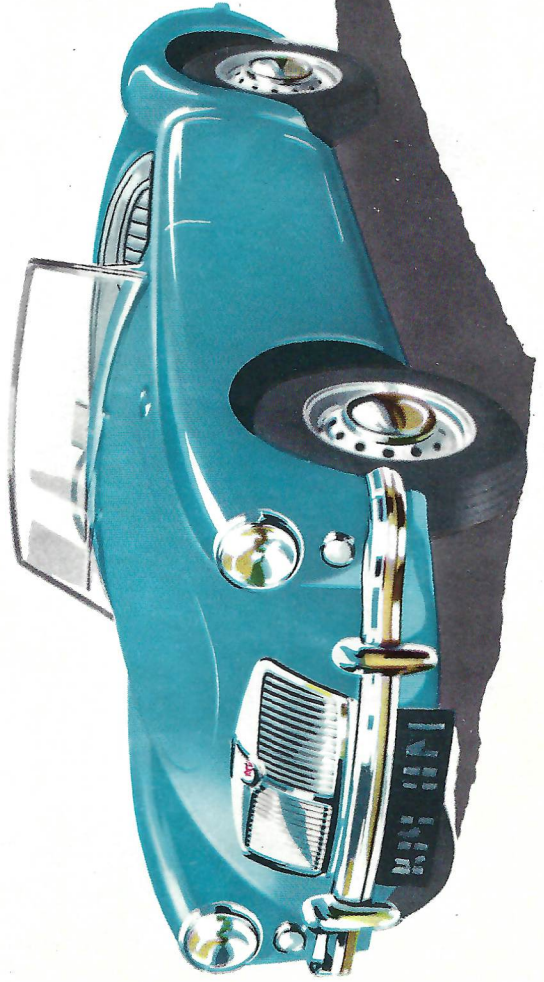

— brings out the expert in you!

THE  **SERIES MGA**

Graceful, curving lines and exciting, eye-catching appearance make the 'MGA' an object of envious glances wherever it goes. Performance is exceptional; the 1489 c.c. engine, incorporating twin semi-down draught carburettors, produces 72 b.h.p. at 5,500 r.p.m. Powerful hydraulic brakes and light, accurate steering ensure that fast driving is safe driving, and the strong, rigid chassis is specially designed to withstand the extra stresses encountered in competition work. Independent front suspension combined with a low centre of gravity provides a stable and comfortable ride over most road surfaces. Altogether a car for the enthusiast who likes to drive fast yet safely.

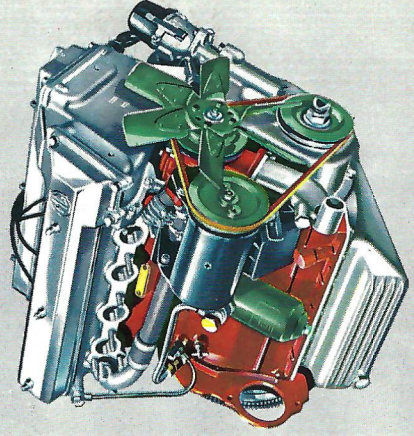

The open version is shown below in Glacier Blue body colour.

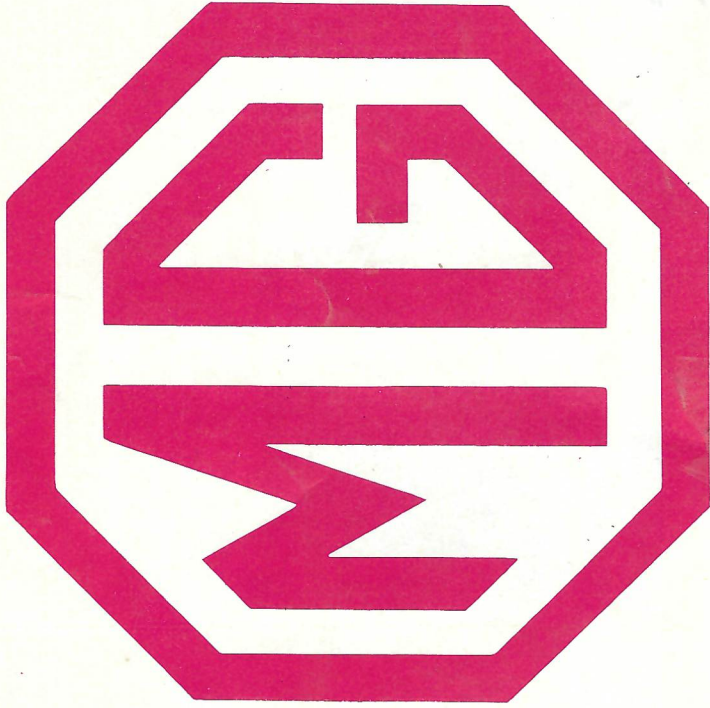

The coupé illustrated on the right is in Orient Red body colour.

**NOW . . . the
phenomenal
Twin-Cam MGA**

The thoroughly tested twin overhead-camshaft engine was announced recently as an optional extra on the 'MGA'. Maximum speed of the car is in the region of 120 m.p.h. while acceleration is sensational—from rest to 100 m.p.h. being achieved in the order of 30 seconds. The latest-pattern Dunlop disc brakes are fitted to all four wheels.

Safety first!
